

5 INNOVATIVE ACTIONS!

SLICE as you like

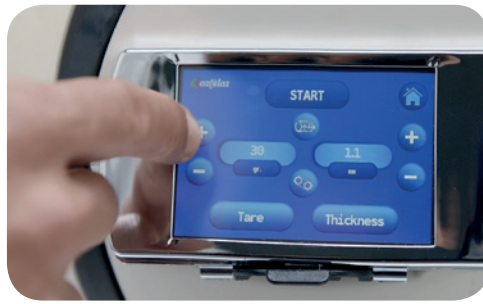

Easydea: perfect to slice ANY type of food, salami, sausages, cured meat, fish, vegetables, fruits with electronic thickness adjustment.

WEIGH what you need

Thanks to a built-in scale you can preset the weight you need and Easydea will cut exactly that.

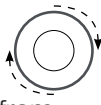

COUNTS for you

+	-
x	=

Easydea can count the number of slices you need. It even calculates the calories of the sliced product.

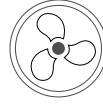

State-of-the-art DISH PREPARATION

While Easydea is cutting, the dish rotates. The slices fall well separated from each other, creating a fresh and imaginative mix of products.

Vacuum PRESERVATION function

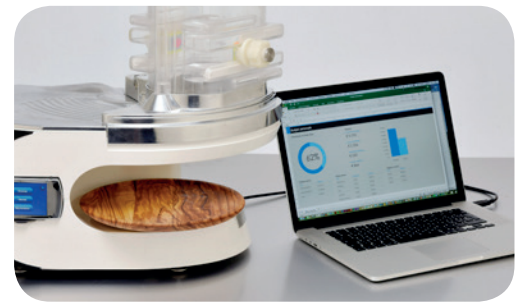

With a built-in powerful vacuum pump Easydea can be used as a Vacuum machine using rigid containers or classic standard bags.

Helps with DATA MANAGEMENT

Easydea can be connected to a PC allowing you to extract information and **statistical data** to optimize the management of costs and revenues! It is also equipped with a remote **diagnostic** and a **remote programming** function to eliminate or drastically reduce the need for technical maintenance.

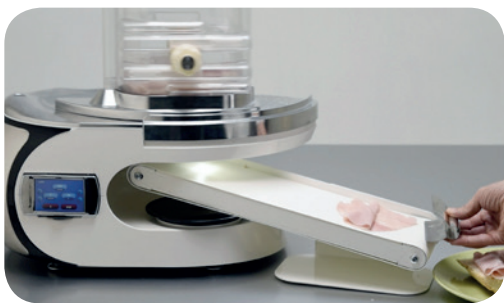

5 UNIQUE ADVANTAGES!

EASY and automatic

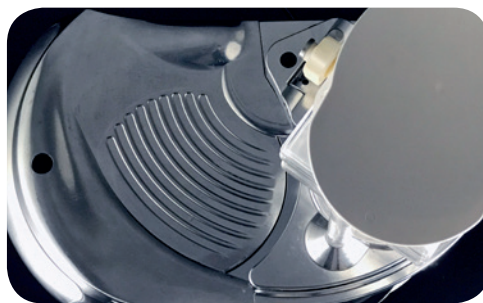

It is simple to use and it allows you to quickly prepare dishes and sandwiches, producing high volumes in no time at all!

Extremely SAFE

Electronic and mechanical safety mechanism to eliminate the usual risks of accidents. Simple and very safe built-in sharpener works while the blade remains protected!

All-round CONVENIENCE

High productivity, very low operating costs! Easydea is an ally for savings in business use. With an incredible reduction of waste and an increase in profits.

VERSATILITY and accessories

With the conveyor belt, the slices are always on hand to prepare dishes and sandwiches. Special systems are also available for the vacuum preservation.

CLEANING and hygiene

simple, safe, fast cleaning: 50% less cleaning time than traditional slicers and solutions! Hygiene guaranteed: the product can be placed on the plate without being touched.
